

What are the biggest benefits you expect from the DPP?

How can research also support you in implementing the DPP?

usefull and meaningfull
interoperability clarification research data providers
pace of implementation quantifying value practical experiments
insight proof of concept not sure
interoperability tools think value
use it beyond compliance pave the way opps threats
dpp positive data impact

What are the main challenges of your organization to implement the DPP?

To what extent do you agree with the following statements?

I have a clear understanding of what a DPP should contain.

3.5

Our organization is ready to create DPPs at scale.

2.9

We know how to integrate DPPs into our existing systems.

2.8

We have the right tools to read and write DPPs.

3.2

Strongly disagree

Strongly agree

Which stage do you expect to be the most challenging?
